September, 2014

Dear Parents/Guardians:

Over the past several years, there have been new guidelines which have been imposed on schools through the state and federal government. Our District Wellness Committee has thoroughly discussed these guidelines as well as the growing concern for the student population with life threatening food allergies. As a result, the following will now take place:

- Students may bring a personal snack/beverage on a daily basis. We encourage healthy choices.
- Students may not share or trade food items with their peers.
- Food may not be sent in for classroom consumption.
- There will be non-food celebrations.
- After school activities are exempt from these restrictions.

We hope that this information will assist us as a community in maintaining a school environment focused on academic excellence and student safety.

Sincerely,

Susan Grosser, Principal
